ABSTRACT

This report consists of the responses of the institutions of the State University of New York to the library questionnaires of the Education Division of the U.S. Department of Health, Education, and Welfare, and the New York State Education Department, for fall 1976 and fall 1977. It includes data on library collections, staff, operating expenditures, and the developmental areas of library loans, transactions, and mean salary of full time library staff. Additional data regarding trends for fall 1975 through fall 1977 are also included. (Author/MBR)

PREFACE

This report consists of the responses of the constituent institutions of the State University of New York to the library questionnaires of the Education Division of the U.S. Department of Health, Education and Welfare and the New York State Education Department, for Fall 1976 and Fall 1977.

This report includes detailed data on Library Collection, Library Staff, Library Operating Expenditures, Developmental Areas: Library Loans, Transactions and Hours, and Mean Salary of Full-time Library Staff for Fall 1976 and Fall 1977. Additional summary tables are presented which include trend data for Fall 1975 through Fall 1977.

In order that these data may be reviewed in relation to user demand for library services, the enrollments for Fall 1976 and Fall 1977 are provided. Similar data concerning Academic Library Statistics were published earlier for 1967 through 1970 and Fall 1972 and Fall 1975. These reports are available at all State University of New York libraries (see Publications List, page 77).

The participation of campus library and institutional research personnel and the work of the professional, statistical and typing staff of the Central Staff Office of Institutional Research and Analytical Studies is gratefully acknowledged.

Marie A. Bush
Assistant

INTRODUCTION

This report consists of data from the Fall 1976 and Fall 1977 library questionnaires. The reader is cautioned against making any specific inter-institutional comparisons. Concise and uniform collections of these data are still in the process of development on both the state and federal levels.

Definitions of Terms[a]

Included below are some of the terms used in this report. The definitions are derived from those given on the survey instruments.

Academic library - an organized collection of printed, microfilm and audiovisual materials which; is administered as one or more units, is located in one or more designated places and makes materials (printed, microfilm, audiovisual) necessary equipment and services of its staff accessible to the college community.

Librarians - staff members who perform work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from the mechanical or clerical aspect.

Other Professional staff - staff members who, though not librarians, serve in positions generally requiring at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, media specialists, etc.).

Developmental Areas - includes information on circulation of materials to users, reference and directional contacts between staff and users of the library and hours and days of operation. (This section represents a new data collection focus on utilization of materials, services and facilities. The reader of this report is advised to examine this data well before forming any conclusions.)

Circulation to users - the number of transactions of all materials charged out to library users by members of the library staff.

Interlibrary loans - the number of items provided to and received from other libraries or library agencies in response to a request.

Reference transaction - informational contact per typical week that involve the knowledge, use, recommendation, interpretation or instruction in the use of information sources by members of the library staff.

Directional transaction - informational contacts per typical week that facilitate the use of the library.

[a]All definitions from: Department of Health, Education and Welfare, Higher Education General Information Survey (HEGIS), Library General Information Survey (LIBGIS), Fall 1976 and Fall 1977.

Organization of this Report

PART ONE

This section of the report contains data reported on the Fall 1976 surveys. Tables in this section include data on: library collection, full-time and part-time staff, operating expenditures, developmental areas, mean salary of full-time staff and the official credit course enrollment for Fall 1976. Data are arranged by institution and/or type of institution.

PART TWO

This section of the report contains data reported on the Fall 1977 surveys. Tables in this section include data on: library collection, additions to the collection, full-time and part-time staff, operating expenditures, developmental areas, mean salary of full-time staff and the official credit course enrollment for Fall 1977. Data are arranged by institution and/or type of institution.

PART THREE

This section of the report contains five tables of trend data. Data from the years 1975-1977 have been aggregated and are included in this section. Although there was a slight increase reported in total library operating expenditures between 1974-75 and 1976-77, the effects of rising inflation have been felt in the libraries of the State University of New York. Library staffing has declined and significant components of the library collection namely, separate government document collections and periodical and non-serial subscriptions have decreased between 1974 and 1977.

[a] Less than 1.0.

[b] Included with periodicals.

[c] Includes Geneva Experiment Station.

[d] Included with Cornell University Endowed-Consolidated Interlibrary Loan.

[e] All statistics reported by these libraries.

[f] Includes both "in-house" and "out-of-house" circulation.
